Practical Strategies for Engaging Multi-Language Learners in STEM

With the continuous influx of international diversity, classroom teachers and students are trying to cope with communication gaps that impact teacher planning, student learning and classroom culture. In this session, educators will be provided with opportunities to share success with working with multi-language (ML) learners in their school or district. Participants will leave with strategies to guide ML learners during instruction and in collaborative groups.

Presentation Target:

K-12

Presenter(s):

1. Dr. Michelle Ellis, New Teacher Coach, Garinger High School
2. Katy Gash, Retired Math Teacher, Garinger High School
