

## HANDS-ON MINDS-ON INDUSTRIAL PRACTICES

Name of Submitter: Jason Painter

Submitter Email: jlpainte@ncsu.edu

### **The Science House Presents: Drone Soccer**

Join us to learn about Drone Soccer! If you've ever dreamt of flying drones and scoring goals, this is your chance to combine cutting-edge technology with thrilling competition. The Science House soon will offer programs and leagues where student teams develop drone flying skills through practical, real-world experience, including preparing for the FAA Part 107 certification. Students dive into the world of drones and master the art of drone piloting while experiencing the dynamic and fast-paced game of drone soccer. The program aims to create student learning opportunities related to aerospace technology, robotics and engineering. Join us for a look at the future of sports and technology!

### **Presentation Target:**

Middle and High School Audiences

### **Presenter(s):**

1. Jason Painter, Director, The Science House at North Carolina State University
