

OUTREACH EXPO

Name of Submitter: Chase Barnhill

Submitter Email: chaseb@ncbiotech.org

Presentation Title: *Project-Based Learning to Inspire Life Sciences Careers with NIIMBL bioLOGIC*

NIIMBL bioLOGIC is a project-based learning program designed to inform, inspire, attract, and recruit the next-generation workforce. Their collaborative approach to education, entrepreneurship and technology helps students engage with life sciences career pathways. The program leverages a project-based learning approach, alongside exposure to local colleges, universities and employers to reinforce real-world impacts.

Presentation Target:

High School
