Presentation Title: *The Engineering Place Presents: Infusing Creativity & Coding*

We will focus on strategies to infuse coding and art into your class. We will discuss how to incorporate creativity and students' artistic interests into the classroom through block-based programming activities. Participants will engage in a math-focused coding activity that will allow their creativity to shine and leave with a lesson plan they can translate to their own classroom settings.

Presentation Target:

Middle School

Presenter(s):

1. Amy Isvik, K-20 Engineering Outreach Program Coordinator, The Engineering Place
