

HANDS-ON, MINDS-ON INSTRUCTIONAL PRACTICES

Name of Submitter: Melaine Rickard

Submitter Email: melaine@ciblearning.org

Presentation Title: *Using SEPs to Teach Rockets, Cells, and Ocean Currents in Grades 6-8*

Join us for a hands-on session that shares strategies and lessons that use science and engineering practices to engage students in the key concepts of rockets, cells and ocean currents. Learn how to incorporate models and phenomena to engage and support all students in a deeper understanding. Leave with resources to support your students as they begin to think and work like scientists. Attendees also learn about our online resources, other student activity packages and our Sponsor a Classroom Program.

Presentation Target:

Middle School

Presenter(s):

1. Melaine Rickard, Teacher and Curriculum Support Specialist, CIBL
2. Rachael Polmanteer, Associate Director, CIBL
3. Todd Guentensberger, Executive Director, CIBL
