Presentation Title: *Fellows Program: Developing Leadership Skills for Successful STEM Educators*

Want to be a better leader? Come to this session to learn about the basic tools designed to develop the basic skills needed for success in all leadership positions.

In this session, you'll learn about the North Carolina Science Leadership Association's Science Leadership Fellows Program, which fosters the development of the essential skills needed to be a successful leader in any setting. This session will actively involve participants in a learning experience and focus on the skills covered to prepare educators from all settings to flourish in leadership roles. Handouts will be provided. The program is generously funded by the NC SMT Center and the Burroughs Wellcome Fund.
