

HANDS-ON MINDS-ON INDUSTRIAL PRACTICES

Name of Submitter: Sunny Grothaus

Submitter Email: sunny.grothaus@chiesi.com

Presentation Title: Edible Education: Bringing Nutrition and Permaculture into the Classroom

Discover how to engage middle and high school students in healthy eating through hands-on garden experiences inspired by permaculture principles. In this interactive session, educators will learn about Neighborhood Forest's mission to connect youth with nature and environmental stewardship while exploring simple ways to incorporate nutrition, food systems and sustainable growing practices into the classroom. Participants will create a mini edible food garden to take home and nurture.

Presentation Target:

Elementary School & Middle School
